EDUCATION

University of Central Florida *Expected Graduation: Aug 2027*
Bachelor of Science in Computer Science

- **Relevant Coursework:** Machine Learning, Data Structures & Algorithms, Object-Oriented Programming

TECHNICAL SKILLS

- **Languages:** Python, C, Java, JavaScript
- **Frameworks & Libraries:** React, Node.js, Express.js, Socket.io, Mongoose, Vite, Flutter
- **Databases:** MongoDB, MySQL
- **Tools & Deployment:** Linux/Unix, Git, GitHub, REST APIs, Vercel, Render, MongoDB Atlas
- **Concepts:** Full-Stack Development, REST API Design, JWT Authentication, OOP

PROJECTS

Ember: Real-Time Messaging App | GitHub | Live Demo | *2026*
Tech: React, Node.js, Express, MongoDB, Socket.io, Vite, JWT

- Built a full-stack messaging app with real-time delivery over Socket.io, user search, and a contact-request system.
- Designed a REST + WebSocket architecture with JWT/bcrypt authentication shared across both channels and authorization checks on every protected resource.
- Deployed on Vercel, Render and MongoDB Atlas with a rate-limited guest demo mode; verified MongoDB indexes with `explain()`.

Full-Stack Finance Manager (Web & Mobile) | GitHub | *2025*
Tech: MongoDB, Express.js, React, Node.js, Flutter/Dart, JavaScript, REST APIs, JWT Authentication

- Built a cross-platform finance app with React web and Flutter mobile clients on a Node/Express API.
- Added account creation with email verification and token-based login backed by hashed credentials.
- Modeled transactions and categories in MongoDB so users can record, categorize, and review spending.

Custom Virtual Machine & Language Parser | GitHub | *2025*
Tech: C, Lexical Analysis, Recursive-Descent Parsing, Data Structures, Regular Expressions

- Built a full compiler pipeline: lexical analyzer, recursive-descent parser, and code generator.
- Designed a stack-based VM with a 20+ instruction set for arithmetic, branching, and memory operations.
- Managed runtime state (program counter, operand stack, variables) plus syntax and runtime errors.

EXPERIENCE

Chipotle, Manager | Orlando, FL | May 2024 – Present

- Served customers in a high-volume environment while upholding food quality and safety standards.

Fun Spot America Theme Park, Ride Attendant | Orlando, FL | Jan 2023 – Aug 2023

- Operated rides and enforced safety procedures while coordinating with staff on daily operations.

Kohl's, Cashier | Oviedo, FL | Oct 2022 – Jan 2023

- Processed transactions, returns, and discounts accurately; recognized by management for reliability.
